OUR MISSION

To be the industry leader in providing comprehensive and effective managed security services--that is achieving the highest level of customer satisfaction by integrating state-of-the-art security technology with knowledgeable and experienced professionals to ensure that our clients are protected from all threats to life and property.

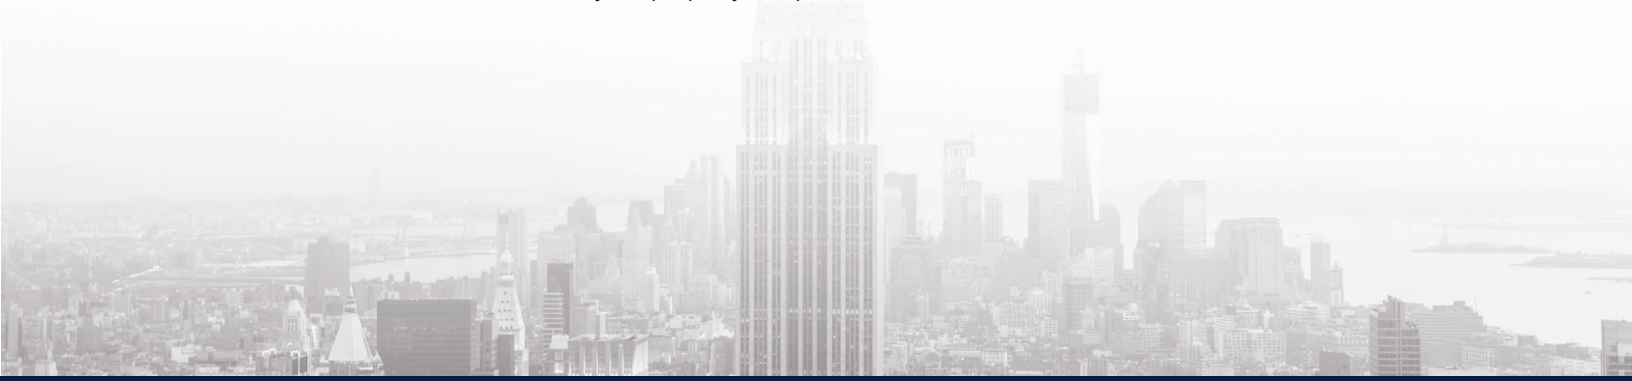

ABOUT US

Mutual | Stat Land Security Services offers the most advanced and effective electronic security systems and services available today. Mutual | Stat Land has been the security choice for many major New York area businesses that require the best in security services for more than two decades.

State-of-the-art electronic security and surveillance equipment, highly skilled system design specialists and installation, and a dedicated, knowledgeable and professional service support and management team all combine to provide you with the most logical, efficient and cost effective security solutions for your business or home.

CUSTOMER SERVICE - WHAT SETS US APART

At Mutual | Stat Land, we are proud to say that our customer service is unmatched in the industry. Keeping you safe is our business and installing an integrated system with the best available technology is only the first step in meeting your security needs. While advances in security technology over the past several years have revolutionized the industry, ongoing management, maintenance, service and event response are essential to ensuring that you and your property are protected at all times.
